MEMORANDUM FOR: Deputy Director of Central Intelligence

SUBJECT : Committee on Documentation Report of Task Team VII (Analyst Communication)

REFERENCES : A. Memo for USIB D-39, 7/22 dated 7 August 1967 from Executive Secretary, USIB; subject as above.  
B. Memo to DDCI dated 14 August 1967 from Director of Security, subject as above.

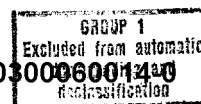

1. This memorandum suggests action on the part of the DDCI.
2. The recommendation in section D page 5 which deals with endorsement of the principle that liaison staffs of the several agencies should have available appropriate lists should be amended to read:

(Paragraph D-3)

We recommend that USIB endorse the principle that the liaison staffs of each agency should be permitted to obtain and have available such telephone directories, organizational charts, listings of key personnel and handbooks of their agency as are needed to assist them in identifying appropriate analysts and sources of information in their agency for organizations to which they are accredited.

In the context of the CODIB deliberations, this amendment conforms with the CIA representative's understanding of the intent of CODIB. Moreover it removes the potential ambiguity that there be a distribution of detailed lists of each agency to every liaison officer in the community.
